

Alfalon (PTFE)

Temperature: -200°C
to +260°C

Fine and flexible PTFE tube with exceptional chemical characteristics, what makes it very suitable for laboratories:

- Highly resistant to chemicals and solvents
- Dielectric
- Low friction coefficient
- Food grade quality
- Anti-adh rence  lev e
- Fire proof

Applications

All types of conducts in chemical, pharmaceutical, organic and food industry
Protection tube, abrasive and corrosive liquids, solvents

Reference	Diameter (mm)	Weight (g/m)	Working Pressure (bar)	Burst Pressure (bar)	Coil length (m)
ALO0406	4 x 6	34,5	25	75	25
ALO0608	6 x 8	45	17	51	25
ALO0810	8 x 10	65	14	42	25
ALO1012	10 x 12	78	11	33	25
ALO1214	12 x 14	92	9	27	25
