

Multi Service Reel

Economical, lightweight and easy to handle hose reel. Its design and materials meet the demands of an industrial reel for continuous trouble free operation. This reel is made of a tough corrosion proof polypropylene with high resistance to the majority of acids and alkalis. The design allows easy cleaning of both hose and reel.

- max capacity: 20m for hose 3/8" (10mm)
- pressure: 16 bar / 232 psi
- connection: 1/2" BSP brass

Standard without hose, but can be supplied with most of our hoses. (contact us)
